

## 11 PERFORMANCE MEASURES FOR OHIO SSRP

### CHILD/YOUTH MEASURES

1. Children remain at home
2. Occurrence of child maltreatment
3. Average length of stay in foster care
4. Re-entries to foster care placement
5. Timeliness of reunification
6. Timeliness of permanency

### ADULT MEASURES

1. Access to substance abuse treatment
2. Retention in substance abuse treatment
3. Reduced substance use
4. Employment
5. Criminal behavior

### **CHILD/YOUTH MEASURES**

1. Children remain at home: Percentage of children identified as at risk of removal from the home who are able to remain in the custody of a parent or caretaker through case closure
2. Occurrence of child maltreatment: Percentage of children who had an initial occurrence and/or recurrence of substantiated/indicated child maltreatment within 12, 18, and 24 months of enrolling in the program
3. Average length of stay in foster care: For children discharged from foster care, their average length of stay (in days) from date of most recent entry into such care until date of discharge
4. Re-entries to foster care placement: Percentage of children returned home from foster care that re-entered foster care in less than 6, 12, 18 and 24 months
5. Timeliness of reunification: Percentage of children who were reunified in less than 12 months from the date of the most recent entry into foster care
6. Timeliness of permanency: Percentage of children placed in foster care who, in less than 24 months from the date of the most recent foster care placement, achieve a) a finalized adoption or b) legal guardianship

### **ADULT MEASURES**

1. Access to treatment: Percentage of parents or caregivers who were able to access timely and appropriate substance abuse treatment; number of days between program entry and treatment entry
2. Retention in substance use treatment: Percentage of parents or caregivers referred to substance abuse treatment who remained until treatment completion (as defined by TEDS); average length of stay in treatment for referred parents or caregivers
3. Substance use: Percentage of parents or caregivers in substance abuse treatment who report a reduction in substance use (as measured by number of days of use in past 30 days at treatment intake and discharge)
4. Employment: Percentage of parents or caregivers participating in substance abuse treatment who are employed full time, employed part time or currently enrolled in an educational or vocational training program
5. Criminal behavior: Percentage of parents or caregivers who show a decrease in criminal behavior
